DIGITAL DOCUMENT FILING AND RETRIEVAL SOFTWARE

DeskTopBinder V2 Professional

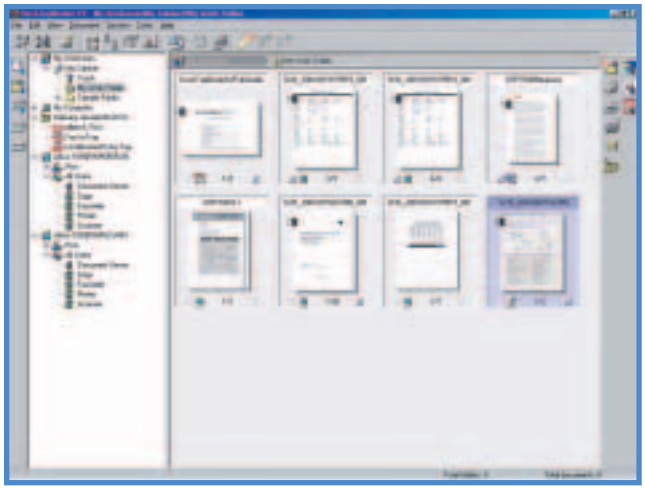
Simplify The Management And Retrieval Of All Documents

COMPANIES TODAY ARE SEEKING TOOLS WHICH HELP MANAGE BOTH ELECTRONIC AND PAPER DOCUMENTS WHILE INCREASING PRODUCTIVITY. DESKTOPBINDER™ V2 PROFESSIONAL IS A DOCUMENT MANAGEMENT PROGRAM THAT ENABLES USERS TO STORE AND VIEW ANY APPLICATION FILE OR IMAGE FILE EFFORTLESSLY.

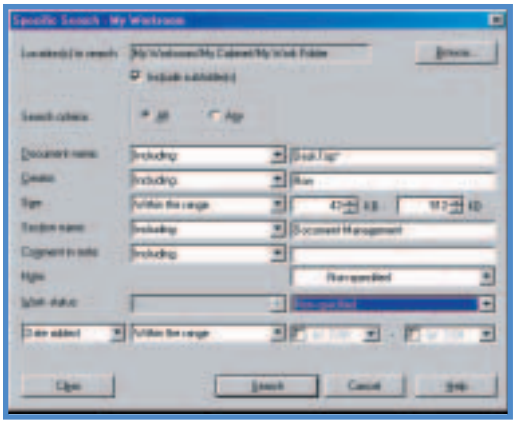
FILES CAN BE SEAMLESSLY INTEGRATED INTO CUSTOMIZED FOLDERS THAT YOU CREATE. LOCATING A FILE IS EQUALLY SIMPLE WITH THE THUMBNAILS DISPLAYED OF EVERY DOCUMENT YOU HAVE ADDED TO YOUR FOLDERS OR IN-TRAYS.

VIEWING THEM IS EVEN EASIER THROUGH THE DESKTOPBINDER VIEWER. IMAGINE SCROLLING THROUGH MULTIPLE DOCUMENTS INSTANTLY OR EXAMINING ENTIRE DOCUMENTS PRODUCED IN APPLICATIONS SUCH AS WORD, EXCEL AND POWERPOINT, OR ANY TYPE OF IMAGE FILE INCLUDING TIFF, JPEG AND BMP, WITHOUT HAVING TO OPEN A PROGRAM.

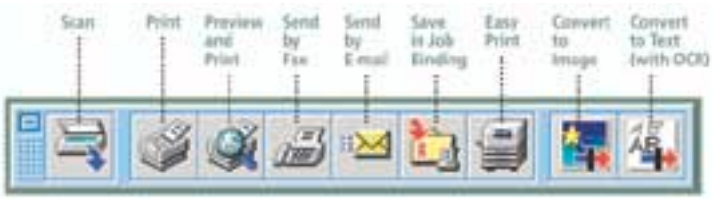
DeskTopBinder V2 Professional displays documents you've saved and allows you to create notes, view and combine different documents and formats, and print them directly from the standard toolbar, all from a single application.



Tree View shows customized folders, Document Server, My Computer, Recycle Bin, Delivery Server In-Trays, etc. Thumbnail View displays saved files for easy retrieval. Multiple application files and/or images can be clipped together as one document. Notes can be added for key information.



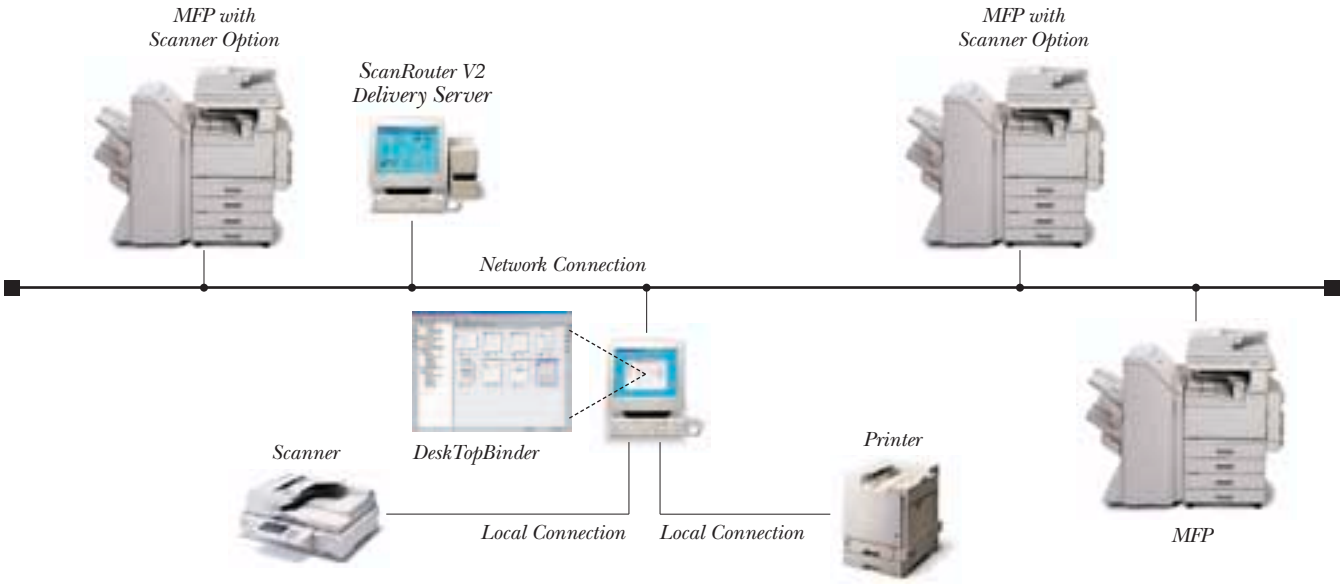
Searching for files is as easy as entering a document, section name, note content or date.



Input, output and file conversion are easily accomplished by dragging files to the Function Palette and dropping them on the function of choice without opening the DeskTopBinder application.

Document Management

Document Retrieval Is Optimized At Your Desktop When Combined With Gestetner's ScanRouter V2 Professional Software



WITH DESKTOPBINDER V2 PROFESSIONAL

Easily Accessible Files

- Multiple stored files can be viewed together in the DeskTopBinder window. Views include Thumbnail, Icon, Detail, and Calendar.
- Files related to each other can be clipped together and managed as one document.

Conversion and Exporting Files

- Scan hard copy documents to DeskTopBinder V2 Pro and convert to digital text using the included Optical Character Recognition (OCR) program.
- Export files to specific applications without conversion of file format.
- Post documents on the Internet/Intranet without working knowledge of Hyper Text Markup Language (HTML).
- Using Job Binding pre-RIP files at your PC, view them on your desktop, rearrange the pages in any order and treat them as one document when printing. Available when using Gestetner's RPCS driver.

Direct Access to E-Mail

- E-Mail directly from the DeskTopBinder V2 Pro window and attach and/or forward stored files.

Graphic Editing on Digital Images

- Cut and paste entire image or parts of images to clipboard.
- Add text or stamps to images and save the edits.
- Draw lines or shapes to emphasize focus or details.
- Print magazine and booklet formats using supported RPCS drivers.

WITH SCANROUTER V2 PROFESSIONAL

Network Scanning

- Saves you the high cost of multiple desktop scanners.
- Scan, copy, print and fax with one office machine.

Electronic Document Distribution

- Rapid distribution of faxes and scanned documents.
- Automatically notifies network Client of incoming documents at their desktop.

User & Group Address Book

- Up to 200 destinations and 200 senders can be registered as users.
- Users are displayed at MFP Network Scanner Operation Panel.

Document Storage and Retrieval

- Documents are easily viewed or downloaded.
- Users set options for viewing lists of stored documents (Thumbnail, Icon, Detail and Calendar Views).
- Store and scan documents simultaneously.
- Extract key words to automatically name a document.

Send & Receive Digital Faxes

- Faxes are automatically routed to the correct user/group folder at the Desktop PC.

Made Easy

ScanRouter V2 Professional Provides All the Tools You Need To Streamline Your Document Distribution Process

ScanRouter V2 software serves as a digital document delivery system that can scan printed documents, photos, schematics and handwritten reports to create digital files that can be electronically transmitted over your network. ScanRouter V2 Professional also functions as an inbound fax routing system.

SCANROUTER V2 PROFESSIONAL CAN HELP

- Reduce the volume of paper on the desktop.
- Share documents without creating additional hard copy output.
- Save time and money distributing faxes via e-mail.
- Provide long-term document archive capabilities.
- Digitize and organize documentation such as handwritten reports, ledgers, images and photos, faxes, personnel records and forms.

SCANROUTER V2 PROFESSIONAL SOFTWARE

Loads on a server PC and directly interfaces with your MFP. Your network administrator can create and modify system settings at the ScanRouter V2 Professional Delivery Server. Personal In-Trays for all registered users are located here.

WEB ENABLED DOCUMENT VIEWER

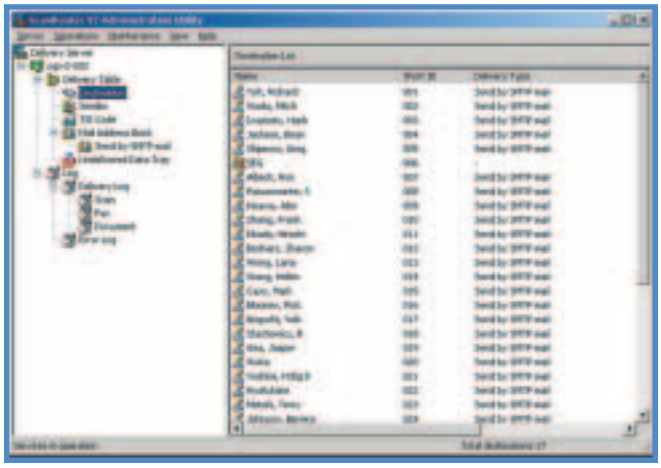
Web Document Viewing software enables your staff to view and manage documents stored in Personal In-Trays on the ScanRouter Delivery Server remotely. In addition, Web Document Viewer makes it easy to share or download fax communications and scanned documents.

AUTO DOCUMENT LINK

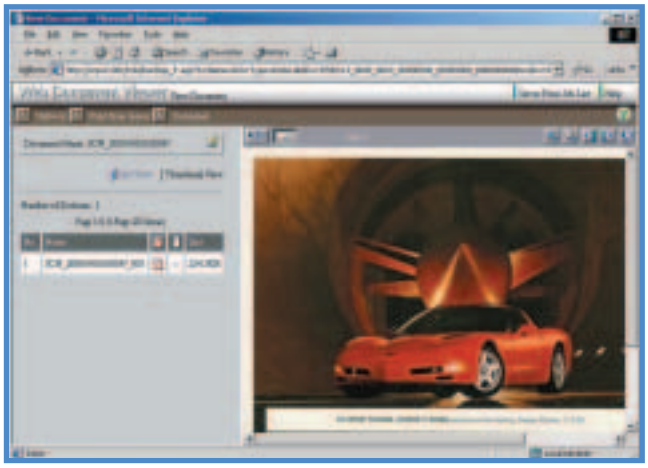
Using this simple tool, users can monitor the delivery server in-trays (ScanRouter V2 Lite/Professional) in the network, local Windows folders and files received from the networked fax. Users can receive notification of faxes or files on their computer. Auto Document Link automatically transfers these files to DeskTopBinder V2 Professional folders or Windows folders. Also, Auto Document Link gives users the ability to notice and/or retrieve documents stored on the ScanRouter delivery server from their desktops.

SCAN – DON'T COPY

Scanning and distributing documents is as easy as sending a fax, making a copy or sending an e-mail. All the operations for scanning and distributing documents are accessed with one trip to the MFP Operation Panel.

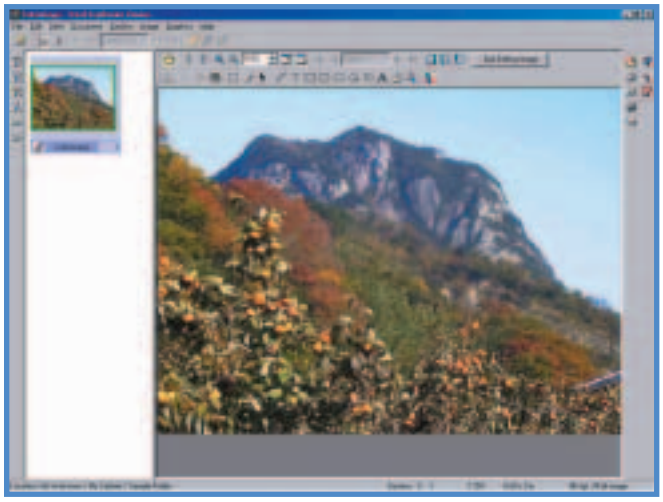


The ScanRouter Administration screen identifies individual users/groups' In-Trays for easy access.

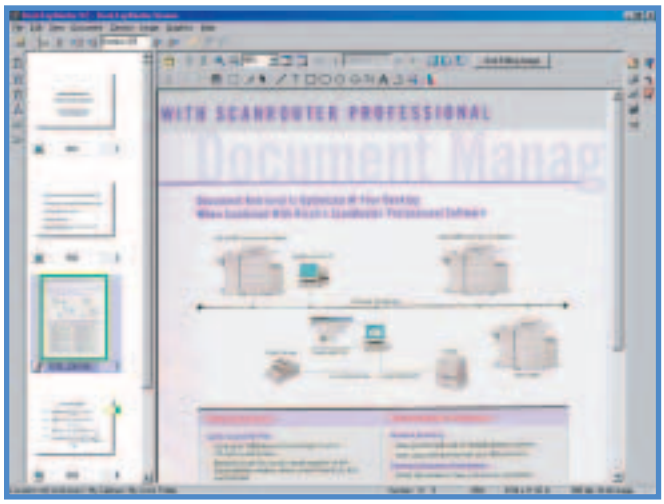


Clients/users can view and retrieve scanned documents using Web Enabled Document Viewer.

DeskTopBinder™ V2 Professional & ScanRouter™ V2 Professional



Document Viewer offers Image Editing Toolbar when working with image files. Add text or line shapes or paste stamps and illustrations on the image. File types are displayed for reference.



File Viewer allows users to view and scroll through documents that were created in various applications and saved onto the hard drive. Files can be added to a designated folder on DeskTopBinder.

EXPAND YOUR CAPABILITIES WITH DESKTOPBINDER V2 PROFESSIONAL EXTENDED FEATURES

Most file types stored in DeskTopBinder V2 Pro Folders/In-Trays can be moved, copied, viewed, edited and printed. Image files can be rotated, graphically enhanced and even altered by erasing desired areas.

You can easily activate the Extended Features to become even more organized and productive:

- Access your e-mail program from within DeskTopBinder V2 Pro, attach a stored document and send it.
- Input any of your paper documents directly into DeskTopBinder V2 Pro from your scanner as new documents or incorporate into existing ones.
- Convert image files into text files through the OCR program included in DeskTopBinder V2 Pro.
- Export files to specific applications without converting the file format.
- Network users can create shared file folders and establish authorized access control.
- Convert multiple formatted documents into a single format (TIFF, BMP, JPEG and PDF).
- Integrated with ScanRouter DocumentServer for all your document management needs.
- Create custom print templates with the Refined Print Command Stream (RPCS) driver.
- Use Job Binding to electronically combine print images from multiple files into one new document.
- View the Document Server built into Gestetner next generation architecture products and Redistribute, Share, Print, and Fax right from your desktop.

COMBINED WITH OTHER GESTETNER PRODUCTS YOUR COST EFFECTIVENESS INCREASES

ScanRouter V2 Professional has been developed for businesses that need cost-effective, productive document management and distribution strategies. Compatible with Gestetner's Multifunction Products (MFP), ScanRouter V2 Professional turns your stand-alone copier into a rapid, digital, network-wide document distribution system. Scanned documents and incoming faxes are quickly and easily delivered to up to 200 individuals or group names via your office network.

Functioning as a network image distribution center, ScanRouter V2 Professional is an integral component of a document management and distribution strategy.
